

**County Lines™**  
**Sizes Product Market Potential by County**  
**For over 40 Products**

- Shows a separate dollar entry for each of the listed products for every county where there is a distributor branch. Shows state summary and all counties in the state along with all products.
- Combines the regional percentages of over 40 product categories from an annual survey of electrical wholesalers with the dollar value of the DISC Corp county forecast.
- Displays one year of dollar values for over 1350 counties and 50 states. Current data is for 2007

Distributor Information Services Corporation
